Principal's Vision

Have you ever found yourself at a crossroads, uncertain of the path ahead? At Kowloon True Light School, we believe that resilience and inner strength empower us to find new directions. It is in this spirit that we set our theme for the year: "Sprouting New Thoughts, Soaring to New Heights". While the world remains constant, it is our mindset that transforms challenges into opportunities. As the Bible reminds us in Romans 12:2, "Do not be conformed to this world, but be transformed by the renewal of your mind, that by testing you may discern what is the will of God, what is good and acceptable and perfect". This truth of God fuels us toward greater heights.

This year, we place a strong emphasis on mental well-being, recognizing that true strength comes from within. New initiatives empower students to prioritize their mental health, including Wellness Week, where experts shared insights on emotional balance. To strengthen our peer support network, we launched the Mental Health First Aid Certificate Course and introduced Life and Mental Health Ambassadors to equip students with practical tools for emotional support. Our collaboration with local artists and musicians—who engaged students through music and interactive activities—has further nurtured a culture of positivity and compassion.

We continue advancing in STEM education, taking innovative and strategic approaches to prepare students for the AI-driven era. We believe that the education sector plays a vital role not only in leveraging AI for teaching but also in equipping students with the skills to thrive in an AI-integrated world. This year, we incorporated AI across all subject syllabi. Our students' second consecutive participation in the iGEM competition, a prestigious global event, demonstrates their dedication to innovation. Their achievements in the Yunyou Tongyi Alibaba Cloud Inter-School AI Competition and the UNSW-DSSSC Future Pilot Program also highlight their strength in

using technology for meaningful and positive change.

Leadership, grounded in empathy and social responsibility, remains a keystone of our mission. This year, we proudly celebrate our students named Outstanding Students of Kowloon City District and their outstanding representation at Model United Nations forums, including the DGS and Oxford Model United Nations Conferences. Our effort in service learning has earned us the JC Volunteer Together Outstanding Caring School Award (Gold). We also believe that programs such as Home Service Learning and the Hong Kong Mental Health Association's "Deep" Joy Carnival Service Learning Project provide valuable opportunities for students to develop a sense of responsibility towards the local community.

Our students' talents extend beyond academics. Competing in the highly competitive Division 1 inter-school basketball tournament, our school's basketball team consistently demonstrates stellar performances and reached the semi-finals once again. In the arts, our choir won the 2024 Guangdong-Hong Kong-Macao Sister Schools Singing Competition, while our Chinese Dance Team earned the First-Class Award at the Schools Dance Festival. These achievements inspire all of us to pursue excellence.

None of this would be possible without our diligent teachers and the support of our parents. Through initiatives like the Parents' Academy and regular parent-school collaborations, we have strengthened the bond between home and school, fostering an environment of growth. Our participation in inter-school professional forums ensures that we continuously refine our programs to meet our students' ever-changing needs.

With open minds and compassionate hearts, may our students continue to grow through every experience and reach their fullest potential.

Innovative Learning

At True Light, we believe education must be more than the mere transfer of knowledge—it must spark curiosity and cultivate adaptability. This year, our academic focus takes students beyond textbooks and classrooms. With a focus on sustainable learning strategies and deeper thinking skills, we have introduced a line up of subject-based initiatives to foster creative thinking, deeper inquiry, and a mindset that embraces challenges as stepping stones to success.

Sustainable Learning

Today's students are tomorrow's changemakers. To nurture global competence, we've embedded the United Nations' Sustainable Development Goals (SDGs) into our curriculum. From exploring global health through board game design in S1 to tackling economic shifts through real-world financial analysis in S5, our students engage with global issues in ways that sharpen their critical thinking and ignite their sense of responsibility. Through hands-on, project-based learning, they don't just absorb knowledge, they apply it, challenge it, and, ultimately, innovate with it.

SUSTAINABLE DEVELOPMENT GOALS

Sprouting New Thoughts, Soaring to New Heights

This year's theme, "Sprouting New Thoughts, Soaring to New Heights," is a call to action—to breed new ideas. We're strenuously cultivating a growth mindset, equipping students with the resilience and confidence to tackle challenges. Through assemblies, mentorship programs, and goal-setting initiatives, we are embedding perseverance, adaptability, and optimism into our school culture. Every student is encouraged to take risks, learn from setbacks, and push beyond their limits.

Deep Thinking for a Complex World

In an era teem with information, the ability to think critically and deeply is more crucial than ever. Our PRIVA Thinking Framework empowers students to be:

Pragmatic Learners

Solving real-world problems with creative strategies.

Reflective Learners

Understanding the power of self-awareness and growth.

Inquisitive Learners

Asking bold questions and seeking truth.

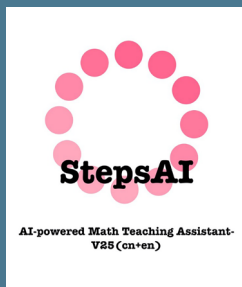

Visionary Learners

Imagining solutions beyond the present.

Articulate Learners

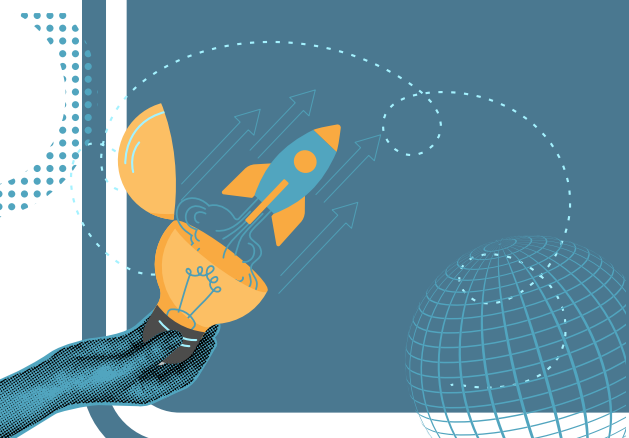

Expressing ideas with confidence and clarity.

To sharpen these skills, we've integrated divergent and lateral thinking exercises into our lessons, encouraging students to explore perspectives, challenge assumptions, and craft solutions. We provide students with the tools necessary to connect the dots in new and unexpected ways, whether they're dissecting biotechnology advancements or uncovering truths in historical narratives.

A perfect example of such effort is the Mathematics Department's participation in the Quality Education Fund's Thematic Network programme (QTN), where they led four other schools in promoting mathematical modelling. In the S3 curriculum, lessons were implemented and open demonstration classes were conducted, guiding students to take on the role of teachers and use mathematical modelling to design student selection processes for exchange programmes. This integrated real-life problem-solving with mathematical thinking, empowering students to become pragmatic and engaged learners.

Also, The Mathematics Department collaborated with the City University to develop an application that aimed at solving learning problems faced by junior secondary school students. They also took their students to a mathematics competition. They won a merit award for the concept of the 'Healing Birds Smart Healthcare' app, which demonstrated their ability to apply mathematical knowledge to solve problems.

Artificial Intelligence is no longer the future—it’s the present. Two years ago, our school anticipated AI’s transformative impact on education and began integrating it across subjects. In Chinese Language, students refine their writing skills using AI-assisted feedback and bring poetry to life through image generation. In STEAM research projects and the Biotechnology Task Force, students uses AI to analyze scientific literature, refining both efficiency and accuracy. Meanwhile, ICT students delve into AI tools, exploring their functions while programming robots to grasp the very principles of artificial intelligence.

 Geneva Innovations Tour

 Belt Show

Beyond AI, our students continue to embrace and challenge themselves in the realm of STEM. From aviation to robotics, they immerse themselves in experiences that fuel their curiosity and innovation. This year, two aspiring pilots took to the skies in the UNSW-DSSSC Future Pilot Program, getting their feet wet in operating a flight in Sydney. The STEM-tastic Adventure introduced students to drone soccer, robotics, and biotech experiments, igniting curiosity and passion.

At Future Science Prize Week, students engaged with top researchers in life sciences, materials science, and AI, gaining firsthand insights into groundbreaking innovations. Likewise, The Future Hong Kong International STEM Education Forum connected them with AI experts, expanding their understanding of technology's role in shaping the world.

 "Science and Technology Innovation Lecture" Launching Ceremony cum The 2nd "Future Hong Kong" International STEM Education Forum 2024

 iGEM

 Yunyou Tongyi Alibaba Cloud Inter-School AI Competition

A STEM trip to Germany further broadened their horizons, with visits to BMW World, Allianz Arena, and Klimahaus Bremerhaven, offering a deep dive into the cutting-edge technological advancements. Back home, our students made waves in the Yunyou Tongyi Alibaba Cloud Inter-School AI Competition, crafting award-winning digital narratives and artistic visuals using Generative AI.

Whether it's through global exchanges, high-stakes competitions, or hands-on projects, our students don't just follow the future—they create it.

Future Science Prize Week 2024

STEM Week

STEM-tastic Adventure

Well-being is at the heart of our school's student support initiatives. After exams, a Horticultural Therapy Activity offered students a calming escape through flower arranging and dried flower crafts, nurturing their creativity and emotional balance. At the start of the school year, Wellness Week introduced a wide array of mental health activities in collaboration with external organizations, from interactive booths and exhibitions to sports and performances, bringing students practical stress-relief strategies.

Mr. Chow Yan Ting's Sharing Session

Mental Health Research Competition

MIND & WELL-BEING

Embracing the Mind Exhibition

Students actively engaged in peer support and mental health advocacy. Life Ambassadors and Mental Health Ambassadors explored emotional awareness through CHILL LAB's AR and VR technology, while student leaders completed the Mental Health First Aid Certificate Course, equipping them with intervention skills to support their peers. The "Nurturing the Mind" Mental Health Research Competition showcased outstanding student research, earning top awards for insightful analyses on mental health.

Music and performance played a key role in promoting positivity. Renowned artists like Gin Lee and Arvin Tsang headlined a Positive Music Performance & Sharing session, blending motivational songs with stress-management tips. The "Flying Elephant" Youth Positive Thinking Program encouraged self-expression through dance, earning students recognition for their captivating performances.

Large-scale initiatives continued throughout the year. The "Embracing the Mind" Exhibition filled the school with uplifting messages and interactive displays, while the DustyKid AI Positive Emotion Support Tool pilot project helped students better manage stress. At Ocean Park, Form 4 students took part in the Mental Health Fun Day, balancing mental health exploration with real-world insights into theme park operations.

Mental Health Fun Day

Flying Elephant Youth Positive Thinking Program

Positive Music Performance & Sharing

Mental Health First Aid Certificate Course

Personal stories of perseverance and ambition inspired students, with artist Chow Yan Ting sharing his journey during a lunchtime session, reminding them of the power of resilience and passion. Whether through research, performance, or peer support, our students continue to cultivate a strong and supportive culture of well-being.

LEADERS & CHANGEMAKERS

Leadership is more than a title—it is a responsibility to inspire and serve. This year's Student Leaders Inauguration Ceremony marked the beginning of a new chapter for student leaders across various organizations. Principal Lee officiated the oath, presenting appointment certificates and offering words of encouragement. Each leader pledged to uphold their duties with dedication, embodying the spirit of service.

Our students continued to engage in meaningful discussions on pressing societal issues. At the 6th Inter-School Youth Forum, students from Queen's College, Ying Wa College, and Kwun Tong Maryknoll College joined us to examine sustainable development in Hong Kong's tourism industry. Guided by industry expert Mr. Sit Chung-ping, participants delivered insightful perspectives, earning our school the Best Team Performance Award and the Best Summary Award.

Leadership training extended beyond the classroom. The Inter-school Leadership Training Camp brought together students from Queen's College and Wah Yan College for a rigorous three-day challenge. High-ropes courses, outdoor navigation, and team challenges pushed participants beyond their comfort zones, refining their problem-solving, communication, and resilience.

Outstanding Students of Kowloon City District

Inter-school Leadership Training Camp

Hong Kong Schools Civic Education Officer Selection Contest

Outstanding leadership did not go unnoticed. At the Outstanding Student Election of Kowloon City District, Form 4 student Tang Hiu Yan and Form 3 student Chow On Na were recognized for their excellence in academics, service, and leadership, receiving the Outstanding Senior Student Award and Outstanding Junior Student Award, respectively.

Students also demonstrated a commitment to civic responsibility. Participants in the Hong Kong Schools Civic Education Officer Selection Contest, organized by the IPS Education Equity Fund, showcased their dedication to social awareness. Several students earned top awards, with Li Ming Yeung, Wong Yi Lam, Wong Sum Yee, and King Hiu Ying appointed as Hong Kong Civic Education Officers. So Ka Yuk secured the Top Ten Outstanding Officers Excellence Award, while Lee Ching Yiu distinguished herself with the Top Ten Outstanding Opinion Leader Award and the Top Ten Outstanding Officers second runner-up title.

The 6th Inter-School Youth Forum

Artistic PURSUITS

Art is the language of culture, bridging past and present through creativity and expression. This year, our students showcased their artistic talents across a spectrum of disciplines, from calligraphy and literature to music, dance, drama, and debate.

In celebration of the 75th anniversary of the founding of the People's Republic of China, twelve of our students took part in the Calligraphy 1000 event, organized by the Education Bureau on 14 September. Alongside over a thousand students, they honored this historic occasion through brush strokes and poetic expression, embodying the essence of traditional Chinese culture. Principal Lee and student representatives were interviewed, sharing insights on the school's dedication to promoting Chinese heritage.

✿ Literary exploration took center stage at the Shimmering Light Illuminates the Soul - Lai Zi Shu Writers' Seminar, where our S3 students had the privilege of engaging with acclaimed author Lai Zi Shu. Her discussions on literature's depth and meaning enriched students' appreciation of storytelling, while face-to-face exchanges sparked curiosity and a passion for creative writing.

2024 Guangdong-Hong Kong-Macao
Sister Schools Singing Competition

Dance remains a vibrant part of our school's artistic journey, with our students competing in the 61st Schools Dance Festival and delivering outstanding performances. Meanwhile, the Ying Wa College Drama Club Annual Performance, featuring our students in "Aunts and Sisters' Genesis" at Kwai Tsing Theatre from 13 to 15 December, captivated audiences and demonstrated the power of storytelling on stage.

61st Schools Dance Festival

Airside Mall Performance

Music and movement filled the air at Airside Mall, where our A Cappella Group, Hip-Hop Dance Team, and Singing & Dance Class were invited to perform on 14 December. Their dynamic performances received high praise, highlighting the students' artistic dedication and stage presence.

Beyond artistic performance, our students also excelled in intellectual discourse. On 1 November, they joined Diocesan Girls' School for a Friendly English Debate Match, where the senior team took on an impromptu challenge while the junior team had their first debate experience. The event fostered critical thinking, eloquence, and mutual learning.

Calligraphy 1000 – Celebrating the Founding of the People's Republic of China

Ying Wa College Drama Club Annual Performance

The 2024 Guangdong-Hong Kong-Macao Sister Schools Singing Competition provided yet another opportunity for musical excellence. Our school's choir, in collaboration with Shenzhen School of Northeast Normal University Affiliated High School, won first prize at the event held at Shenzhen Futian High School. More than just a competition, the experience strengthened cross-border friendships through the universal language of music.

Finally, the art of oration took the spotlight at the Lions Clubs Hong Kong and Macau Junior Toastmasters Competition. Competing under the theme "Changing the World with Positive Energy and Love," S3 Tai Sze Ching and S1 Chan Sum Yee Viann advanced to the final round, exchanging ideas with other young speakers before earning the Merit Award at the ceremony on 2 November. Their inspiring speeches demonstrated not only eloquence but also a deep sense of social responsibility.

LITERARY Horizons

A love for literature is nurtured not only in the solitude of reading but also in shared storytelling, discussion, and exploration. This year, our students engaged in activities that deepened their appreciation for the written word and its power to shape minds and cultures.

Our Book and Tea Rhythm Activities, held every Friday at De Xin Academy, provided a space for students and teachers to explore literary masterpieces while enjoying fragrant tea and delicate treats. Similarly, the First Reading Day (13-14 February) centered around *The Little Prince*, engaging students in booth games, reading workshops, and a travel literature seminar to encourage curiosity and reflection.

Beyond the classroom, students participated in literary and cultural excursions. The Literary Walk • Shadow Hunt in Dragon City (8 July) led them through Kowloon City to explore local heritage and engage in descriptive writing. Meanwhile, our S5 students' visit to the Hong Kong News Museum (3 July) provided insight into journalism ethics and media literacy through interactive sessions with professionals. The Bamboo Dream Hong Kong Book Launch (26 February) at Ocean Park combined literature with conservation, enriching students' understanding of giant pandas and their cultural significance.

Traditional arts also played a key role in broadening students' literary experiences. A Cantonese Opera performance of "The Summer Snow" (6 November) offered an immersive experience in this poetic art form. Meanwhile, Chinese Cultural Week: Hundred Flowers for Spring (17-21 February) celebrated literature through poetry competitions, literary discussions, and hands-on creative workshops, culminating in the spirited Fei Hua Lin Competition.

Our students excelled in competitions and public engagements. In the "Stories of Lion Rock" Youth Essay Competition, S4 Lim Chi Ching and Ting Ching Hee placed second and fourth, showcasing their deep connection to Hong Kong's heritage. Additionally, four students were selected to host the RTHK radio program "Life Stages Across Cultures", where they will explore global traditions through storytelling.

Finally, literary inspiration flourished in the Reading Seminar (14 January), featuring guest writer Mr. Ng Chun Yin, whose engaging discussion on Paper Clay ignited students' passion for creative writing.

Hong Kong Island & Kowloon Secondary Basketball Division 1 Competition

Lions Clubs International China Hong Kong & Macau Basketball Tournament 2024

The Spirit

Our volleyball teams showcased their grit and determination in multiple competitions. Battling against the elements, our Senior Team secured 3rd Runner-Up in the BOCHK Beach Volleyball Cup 2024-2025 (Division Three), proving their resilience under harsh conditions. Meanwhile, our A Grade Volleyball Team emerged as 2nd Runner-Up in the Inter-School Volleyball Competition (Division Three – Kowloon One), displaying unwavering dedication and exceptional teamwork throughout the intense matches.

BOCHK Beach Volleyball Cup

Our basketball teams also delivered impressive performances. The Lions Clubs International China Hong Kong & Macau Basketball Tournament 2024 saw our girls' 15-year-old category team seize the 1st Runner-Up title in a fiercely contested event. In the Hong Kong Island & Kowloon Secondary Basketball Division 1 Competition, our Group A team fought through challenging matches to claim 3rd Runner-Up, while our Group B team claimed the 2nd Runner-up, earning them a coveted spot in the Elite School Basketball Competition. Meanwhile, our school proudly hosted the Kowloon True Light Cup Primary Schools Basketball Invitational Tournament, fostering young talent and strengthening inter-school connections.

Kowloon True Light Cup Primary Schools Basketball Invitational Tournament

The 30th Anniversary Archery Tournament

In the arena of competition, our students demonstrated remarkable perseverance, teamwork, and athletic prowess, achieving outstanding results across various sporting events. Their commitment to excellence and sportsmanship has once again placed our school in the spotlight.

Inter-school Volleyball Competition

Swimming Gala

HKSSF Inter-school Athletics Competition

of Sport

Our Swimming Team made waves at the Inter-School Swimming Competition (2024-25 Division Two), securing numerous individual and group accolades. The 21st Swimming Gala, held on 6 December, saw enthusiastic participation, with Hong Kong Wushu athlete Au Yeung Pui Yu gracing the event as Guest of Honour to inspire our young swimmers.

On the track, our athletes displayed outstanding endurance in the HKSSF Inter-School Athletics Competition (Division 3) and the Inter Secondary Schools Cross-Country Running Competition on 19 February, securing remarkable victories through perseverance and rigorous training.

Expanding their sporting horizons, our students participated in the 30th Anniversary Archery Tournament hosted by The Hong Kong Management Association K S Lo College, where their sharp focus and precision earned them commendable results. Additionally, the Kerry Hong Kong Streetathon 2024 saw students and teachers take on the 10km race, pushing their limits in pursuit of fitness and personal growth.

Inter-School Swimming Competition

Inter Secondary Schools Cross-country Running Competition

Kerry Hong Kong Streetathon 2024

Global Perspectives

Our students have taken bold steps onto the international stage through Model United Nations conferences, engaging in rigorous debate and diplomacy. At the St. Christopher's Education and City University of Hong Kong Model UN Conference, our students excelled, with Yuen Wing Yu earning a scholarship to the Global Youth Leadership Training Camp. Similarly, at the Diocesan Girls' School Model UN, students honed their public speaking and negotiation skills. A Form 5 student also proudly represented our school at the Oxford Model UN, advocating for sustainable development and engaging with peers from around the world in a dynamic simulation of the UN Climate Change Conference 2025.

Beyond the realm of diplomacy, students expanded their perspectives through immersive experiences. A visit to TVB City, as part of the Student Media Education Workshop, provided an insider's look at journalism, reinforcing critical media literacy. Meanwhile, the Greater Bay Area "Law" Exhibition brought students face-to-face with legal professionals and institutions, offering firsthand exposure to the region's judicial processes.

Our effort in increasing our students' global awareness also extends to fostering ethical leadership. At the Independent Commission Against Corruption (ICAC), students participated in integrity training, gaining insights into law and governance. These experiences cultivate globally-minded leaders, equipped to navigate an interconnected world with confidence and insight.

Growing Together, Walking with China Merchants

National Perspective

A profound sense of national identity is woven into the fabric of our students' learning experiences. Through historical drama, students relived the struggles of the Anti-Japanese War under the guidance of professional theater groups, culminating in a microfilm production set to serve as an educational resource for future scholars. Equally enriching was the National History Mystery Solving Competition, where our students meticulously crafted an immersive escape room, transporting participants through pivotal moments in China's modern history.

Cultural heritage and celebration also play a vital role in our school's engagement with national identity. Students embraced traditional attire and customs during the Chinese New Year Casual Wear & Traditional Attire Day, while the "Red Packet for Warmth" Charity Drive reinforced the spirit of giving. At the Intangible Cultural Heritage Exhibition, students experienced the rich tapestry of Cantonese opera, Tai Chi, and centuries-old craftsmanship, deepening their appreciation for cultural preservation.

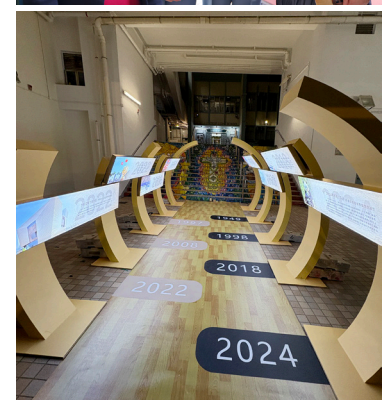

Further enriching this national connection, students explored historical ties between Hong Kong and the mainland through the exhibition "From the Bund to the Harbour: Canton and Hong Kong Reconnected." The "Growing Together, Walking with China Merchants" program took students across Sichuan, Chongqing, Shanghai, and Beijing, exposing them to the country's historical and economic milestones. Their reflections and experiences were later shared at a formal presentation, celebrating their journey of discovery.

Marking a significant milestone, our students proudly participated in celebrations of the 75th anniversary of the People's Republic of China. From martial arts performances to a joint-school commemorative event, their involvement reflected a deep-rooted appreciation of the nation's progress and cultural heritage. Moreover, participation in the MGM Cup Historical Knowledge Competition saw our students excel in academic exchange, engaging in thought-provoking discussions with peers from the Greater Bay Area.

Whether through national history or global diplomacy, our students stand at the intersection of past and future, embracing both heritage and progress in their educational journey.

Expanding Social Understanding

Opening Ceremony of Advocating Carbon Reduction Program

Carbon Reduction Action - Continuation Ceremony

Hong Kong Volunteer Award 2024 Jockey Club Charitable Fund _ Outstanding Caring School Award

S1 & S4 Sister Form Assembly

Our school remains positive about the importance of fostering social responsibility and global awareness through a diverse range of activities centered around sustainability, volunteerism, and service learning.

The Mid-Autumn Environmental Recycling Campaign engaged students and staff in recycling mooncake leftovers and boxes, promoting waste reduction in line with the United Nations Sustainable Development Goals (SDGs). The campaign was a part of the broader effort to deepen environmental consciousness.

Our effort in community service earned recognition with the JC Volunteer Together Outstanding Caring School Award(Gold). This prestigious award highlighted our school's dedication to volunteer work, particularly through the Social Innovation — Benevolence, Breakthrough, Innovation, and Action program, which has inspired numerous student-led initiatives.

The Home Service Learning program, a collaboration with Form 4 students, focused on addressing poverty and homelessness. Students applied design thinking to plan and execute creative activities, enriching the lives of those served and embodying our motto, "Thou art the Light of the World." Similarly, the Walking with You service learning initiative, in partnership with the Hong Kong Society for the Blind, allowed students to engage with the visually impaired and intellectually disabled, fostering empathy and understanding.

Students also participated in the Hong Kong Mental Health Association's "Deep" Joy Carnival, where they volunteered to promote mental well-being and holistic health through interactive experiences. In addition, they attended the Hong Kong Original Marine Conservation Musical, which emphasized the importance of ocean ecology and conservation, aligning with our focus on nurturing environmentally conscious global citizens.

To further reinforce environmental responsibility, five S3 students represented our school at the Opening Ceremony of the Advocating Carbon Reduction Program. They gained valuable knowledge on low-carbon living and are now equipped to lead future initiatives promoting carbon reduction. Additionally, our representatives attended the Carbon Reduction Action - Continuation Ceremony, as a collaborating partner with the Environmental and Ecology Bureau in reducing carbon emissions and promoting waste recycling.

Geography Field Trip

Our Geography Department introduced students to practical applications of geographical knowledge through various activities. A themed talk by the Survey and Mapping Office, The Land Department, provided insight into map production methods and career opportunities in the field. The outreach team of the Environmental Protection Department also visited our school to host the We-recycle @ School Outreach Booth Activities, enhancing students' awareness of recycling and environmental conservation. Furthermore, S6 Geography students participated in an industrial fieldwork study in collaboration with the Faculty of Education, The Chinese University of Hong Kong. Their visit to InnoPark and Tung Tau Industrial Area allowed them to conduct environmental quality assessments and reflect on the relationship between industrial activities and environmental sustainability.

Our S1 & S4 Sister Form Assembly hosted an interactive game designed to raise awareness of poverty. This simulation gave students insight into the challenges faced by marginalized communities, sparking empathy and a deeper understanding of global issues.

Faith and Reflection

This year, the Religious Affairs Committee hopes to help students see how God lights the way in their lives. Our teachers guide students in faith, worship, and service, fostering both personal growth and a deeper connection with God.

During Religious Week, students engaged in faith-based games that blended spirituality with joy. A gospel meeting provided a space for reflection, inspiring many to consider their own journey with Christ.

Continuing True Light's tradition, all Form 1 students attended the Education Service at Mong Kok Church, where worship, singing, and messages offered them new insights into faith and inner values. Student fellowship leaders received training to strengthen their spiritual lives and cultivate a heart for service, while the worship teams guided students in sincere worship during morning assemblies and gatherings. Within cell groups, students found encouragement and support, building a strong community of faith.

From nurturing faith to fostering outreach, the committee has worked with devotion and love, giving all glory to God.

Shared Moments

Our school fosters unity and strengthens relationships through a variety of vibrant celebrations and meaningful events that bring together students, staff, and the wider community.

Monthly birthday parties celebrate students and teachers, fostering connections and spreading joy through shared moments of celebration. The Mid-Autumn Festival saw a festive display of lanterns, riddle games, and kite flying, immersing students in the charm of Chinese traditions while promoting a sense of togetherness.

The Christmas celebrations included a dynamic Game Day with class competitions, a Service, Fun Fair, and Class Party, where Principal Lee personally engaged with students, spreading holiday cheer. The Singing Performance & Sharing showcased student talents and a guest performance by singer Mike Tsang, combining entertainment with emotional expression through sound therapy.

The True Light Voice 2 Alumni Singing Competition united alumni in a spirited contest, culminating in a victorious performance by Yeung Hiu Lam. Additionally, the Chinese New Year Carnival included a Casual Wear and Traditional Attire Day to raise funds for World Vision, reinforcing the spirit of generosity.

Through the Charity Snack Sale & Cantonese Pop Music Sharing, students enjoyed an inspiring performance by DJ Ah Suan and artists Gareth.T and Teddy Fan, while also supporting charitable causes. The Farewell Ceremony for Graduating Students and the DSE Fighter Station provided heartfelt moments of reflection and encouragement, highlighting the bonds between students and the school community as they prepared for future challenges.

The "Intergenerational Integration" Service Learning program engaged students with elderly residents, embodying the values of compassion and social responsibility as part of our dedication to promoting well-being.

These shared moments serve as pivotal experiences, enriching student life and cultivating lasting memories that connect past, present, and future generations.

Professional Success

Chan Ching Chinese History Teaching Award 2025

Our school actively fosters professional growth through collaborative educational exchanges and initiatives that enhance both academic and global perspectives. In May, the 3rd Guangzhou-Hong Kong-Macau Sister Schools Educational Exchange Annual Conference saw our students engage in a Model United Nations Assembly focused on "Priorities for Educational Development in the Era of Artificial Intelligence." Representing ten countries, our students showcased their diplomatic skills, earning accolades such as "Excellent Diplomat," "Outstanding Diplomat," and "Best Diplomat."

Additionally, the Joint-School School Development Day with Ju Ching Chu Secondary School brought together teachers from various districts for an enriching discussion on enhancing English proficiency. The event emphasized integrating values education with language development, equipping students with the tools to succeed in both their academic and personal growth.

Sharing on School-based Curriculum Implementation, Strategies on catering learning diversity and curriculum evaluation

Strengthening inter-school collaboration, our school welcomed Principal Chan Chi Wai and teachers from Po On Commercial Association Wong Siu Ching Secondary School in February. The visit included a tour of our campus facilities and an exchange of insights on optimizing school environments. We were also honored by the visits of teachers from Nanjing Zhonghua High School and Elegantia College, who brought fresh insights into our pedagogy.

A visit from Nanjing Zhonghua High School

In recognition of outstanding contributions to education, Ms. Lau Man Wai, Head of the Chinese History Department, was awarded the "Chan Ching Chinese History Teaching Award 2025" by the Institute of Chinese Studies at The Chinese University of Hong Kong. Following interviews and teaching demonstrations, she was named the sole recipient of this prestigious award. Our school's Chinese History Department continues to refine its school-based "Seeking Truth, Seeking Light" curriculum, encouraging students to engage with historical materials through interactive experiences such as role-playing and mystery-solving activities.

Joint-school School Development Day

Furthering our academic effort, our Chinese Language and History Departments participated in a school-based curriculum sharing session organized by the D.H. Chen Foundation. The session provided a platform to present the unique features and implementation of our curriculum, highlighting innovative approaches to language and history education.

Biotechnology Workshop

Home-School Partnership

To support parents in enhancing communication with their children, embracing holistic education, and nurturing their well-being—physically, mentally, and spiritually—the Parent-Teacher Association (PTA) is launching the "Parents' Academy" this school year. This initiative includes six themed seminars, each followed by small-group discussions for deeper engagement and shared experiences.

In addition to these learning opportunities, the PTA has also organized interest-based activities to strengthen bonds among parents. These include a Tea Brewing Workshop, a Biotechnology Workshop, and an exclusive movie screening event. The enthusiastic participation and warm atmosphere reflect the strong sense of community among our parents.

The first meeting of the 2024 Parents' Academy kicked off with a lecture on "Nurturing Resilient Minds" by Ms. Christine Ma, offering parents insights into promoting health, happiness, and effective communication with their children. This was followed by interactive discussions, encouraging meaningful exchanges between parents, teachers, and speakers.

To further support senior students, the S4 and S5 Parents' Evening provided parents with a comprehensive understanding of the senior secondary curriculum and the school's life planning resources. Over 100 parents attended, strengthening collaboration between home and school, and fostering a deeper connection to their child's educational journey.

International Excursion

*A visit to sister school in Scotland*

Learning Beyond Borders

*Jeju Sustainable Development Tour**Osaka World Expo Study Tour**UK, Scotland & Denmark Study Tour**Belt and Road Initiative Vietnam Study Tour**Save the Children's Youth Tokyo Cultural Exchange Tour*

Our school provides a diverse array of learning experiences, enhancing students' global perspectives and fostering cross-cultural understanding.

In the realm of excursions to China, students had

the opportunity to immerse themselves in the rich heritage of the mainland. The Citizenship and Social Development Mainland Study Tour to Jiangxi allowed Form 5 students to explore historical landmarks and establish a sister school relationship with Ganzhou High School. The Belt and Road Initiative Vietnam Study Tour gave students a chance to learn about the region's history, culture, and service projects. Meanwhile, the 2024-2025 Hong Kong Secondary School Xiamen Study Tour provided insight into mainland university life and national development.

Our global exposure activities further extended students' international outlook. The Youth Tokyo Cultural Exchange Tour, in collaboration with Save the Children, saw our student representing Hong Kong, engaging in cultural exchanges with Japanese peers. The UK, Scotland & Denmark Study Tour offered students the chance to visit historical landmarks and partake in academic exchanges, including a successful research showcase at the BETT Show.

On a more local scale, the Guangdong-Hong Kong Youth Exchange Program 2024 took students to various cultural and educational sites in Guangdong, including the Guangzhou Municipal People's Congress and Shenzhen University, where they had the opportunity to stay in university dormitories, fostering their career aspirations. Our Sister School Exchange & National Day Celebration with schools from Guangzhou also strengthened ties between our institution and regional peers.

The school trip program was equally enriching, with distinct itineraries for each grade. From camping at Pak Tam Chung to cultural exchanges in Guangzhou and study tours in Huizhou, these excursions nurtured teamwork and cross-class bonding.

A Shift in Thought, A Lift in Life—it's more than just a theme; it's how we approach life and everything we do at Kowloon True Light School. The way we think shapes our reality, and at our school, we believe that a positive mindset is the key to opening doors to endless opportunities.

This brochure wouldn't see the day of light without the hard work of many—our teachers, staff, and the School Promotion Committee. We're grateful for their support in bringing this vision to life.

As you read, we hope you feel inspired by the stories, memories and the remarkable work being done this year. Because, after all, shifting your mindset can transform everything.
